1. Quality of written expression & presentation

Level: **Pass**

Comments

When referring to the arguments of related literature, please use the present tense to discuss this - the articles continue to present the argument.

Please avoid using a one-sentence paragraph. We want to see paragraphs fully formed, with a beginning, a middle, and an end.

2. Follows the instructions:

- Addresses the set question
- Shows a good understanding
- Meets the word count

Level: **Pass**

Comments

A clear focus was given to the question posed, and excellent use of the related literature to support the argument presented.

3. Academic integrity & wider reading

Level: **Pass**

Comments

Excellent use of the related literature to support your argument.

Please ensure that the in-text citation to support a point being made is within the punctuation for a sentence (and not beyond the full stop).

Please ensure compliance with the Harvard approach to presenting references in the Reference list, as I note a few deviations from the required syntax.

Outcome: **Pass**
