

Tutor's feedback - Assessment:

Development Individual Project: Presentation

Grade: 81 %

Graded by: Dr Doug Millward

Feedback comments:

A very good use of tables to store the comprehensive information recorded. A good discussion of, and justification for the requirements.

A comprehensively costed plan with explanations for decisions. Good justifications for delivery dates and prices (just a little mis-step around the jump in dates from the eighties up to now :))

A very well-presented recording, in the correct format which addresses all the questions and presents the information in a clear and understandable way.

A very well-constructed video, with excellent charts and graphics producing a very involving recording

A comprehensive set of references, good use of citations, and correct formatting.

A very professional and comprehensive assessment covering all the bases, well produced with great attention to detail - well done.
