Criteria and weighting	Level	Comments:
Knowledge and Understanding weighted 25%, Are the major points identified? Are the details presented clearly?	Excellent	There is an excellent knowledge of the topic you have chosen, which is a really interesting subject matter and could work well as a Capstone project, [cultural influence in business and project management]. There were some effective observations in the content and topic is not an 'obvious' choice which is why it could do well as a Capstone project.
Criticality weighted at 25%, Is there a critical discussion/analysis of your methodology/design?	Satisfactory	Critical discussion is where you need to develop. You are very good at describing the content of what you want to do, but there needs to be some more in-depth concepts regarding strengths and limitations of the subject. And so your detail is good, just focus that bit more on comparison and pros and cons of facts.
Structure and Presentation weighted at 10%: Is the presentation well organised?	Very Good	The structure and presentation of the content is very good. Slide 4 lingered a little, and so there was a lot of discussion at this point without the slide moving on. For future so that your audience doesn't lose focus, keep the slides moving and break up the discussion using different visuals for different points you are making. Some of the text varied quite a lot in size on the slides and some content was just a little blurry and so again, just reflect on that consistency of the visual experience all the way through. From a concept perspective the slides were well organised.
Presentation and Communication Skills weighted at 30%: Is the presentation clearly introduced and concluded? Is the presentation well-paced and timed? Is the information presented clearly and concisely? Is the presentation	Very Good	Very good presentation style with a concise and focused approach to the project. Some of the audio was a little bit glitchy here and there and so again, please do work on that consistency all the way through the content. Whilst the presentation was clearly presented, do work on some

Online

style lively, fluent and engaging?		intonation in your voice for future summative. The content was well paced and well thought through	
Use of relevant sources weighted at 5%: Are the major points identified? Are the details presented clearly?	Excellent	All major points were well considered and presented to an excellent standard overall. This outcome also focuses on the concise method of presenting your content	
Use of relevant sources weighted at 5%: Is there a critical discussion/analysis of your methodology/design?	Very Good	Overall, this outcome is very good, your design and analysis of your methodology bordered excellent, but as already discussed, your critical discussion technique does need to be developed.	
		Overall	
Positives:		Overall	
Some excellent knowledge and understanding demonstrated			
 The content is concise and focused, with the subject matter being interesting Overall, a very good outcome 			
Points for development:			
 This is a mixed bag of outcomes ranging from excellent to satisfactory 			

- Work on your criticality and look at comparative as opposed to descriptive writing
- Taking this approach will allow you look much deeper in strengths and limitations of research
